Hoblitzell, secretary, and Elmer Hough, director, officials of the West Virginia State Automobile Association, arrived in the city today at noon from Wheeling and Wellsburg to address the meeting of automobile owners which will be held tonight in the Court House. In the court room there is expected a large attendance of automobile owners.

Commencing at 7:30 tonight, each of the three visitors will address the gathering with the purpose of interesting the auto owners in the formation of the new proposed Automobile Club of Fairmont, which will immediately be affiliated with the State Automobile Association.

A large crowd is expected and all automobile owners should make an effort to hear the speakers.

The Source of Vital Power

Nothing helps more to counteract the daily drain on human endurance than pure, revitalizing food.

Grape-Nuts

is concentrated nourishment made from whole wheat and malted barley.

It supplies all the nutriment of these wholesome grains, retaining all the vital body-building salts—potash, lime, iron, etc.—lacking in white bread and many other foods, but which are absolutely necessary to rebuilding of sinew, brain and nerves.

Grape-Nuts is partly predigested in its making—hence demands but little effort from the digestive organs.

Delicious and splendidly satisfying, it's the ideal school ration for children—a wonderful builder for adults.

Farmer Complains of Scratching Chickens

Robert Starrett, a farmer of Prickett's Creek, was in Fairmont today seeking the assistance of county officers in "shooing" a flock of 100 chickens from his oats and potato fields.

The chickens, which belong to a neighbor, Mr. Starrett declares, have destroyed nearly 75 bushels of oats, having "picked over" nearly two acres of standing grain.

The chickens have also scratched out about 12 bushels of tubers from a potato field, Mr. Starrett alleges. Not only have the fowls "dug" the potatoes, but they have with malicious intent pecked and scarred the potatoes with their sharp bills as to make the tubers practically worthless. Officials in the sheriff's office referred Mr. Starrett to Prosecuting Attorney Tusca Morris for legal advice.

The "wild man" of Hoult, identified yesterday as Michael Bobchak by the Marion County Lunacy Commission, was adjudged insane and an order was entered by County Clerk A. G. Martin committing him to the state asylum at Weston for treatment.

While witnesses were testifying that Bobchak had been in the habit of strolling the bushes along the roadside clad as September Morn and frightening women into hysterics, the patient read aloud from a Bible printed in a foreign language and apparently paid no attention to the proceedings.

HEALTH NOTICE

The general condition of all the water supplies of the city is not at all good. Of ten wells examined only two have shown pure water. The city water supply which has remained uncontaminated all summer, at present shows that it contains colon bacilli in small numbers; all water used for drinking purposes should be boiled for the next month.

Do not trust your well. Wells in the most favorable appearing locations may be very impure. The water stream that supplies your well may come a distance of five hundred feet and on its way gather up material from closets and stables. Boil all water!
